Cantonese Govt. Has Changed Its Capital

Official Decree Removes Seat of Administration From Canton to Wu Chang—U. S. Won't Recognize It.

Washington, Oct. 21.—Following its military victory in Central China the Cantonese government has officially decreed removal of its capital from Canton to Wu Chang, according to consular dispatches to the state department today.

Secretary Kellogg declared today that the United States policy opposes extension of de facto recognition to provincial governments in China, America's policy being based upon a unified China. He indicated this government will continue to deal with the Peking regime as long as a semblance of power centers in the northern capital.

GRIDGRAPH COMPLETED

MARYVILLE-SPRINGFIELD GAME
TO BE PLAYED ON IT.

AT MISSOURI THEATRE

Apparatus Designed By W. L. Mapel
Completed This Afternoon—Game
Starts At 3:30 O'clock Friday.

Notwithstanding that tomorrow the Bearcats will be playing their second M. I. A. A. conference game of the season 300 miles south of here on the Springfield Teachers' field, College students and their town's football fans will be able to witness a "Gridgraph" interpretation of the fray play by play. The big electric scoreboard and football field, designed and constructed under the supervision of W. L. Mapel, director of information at the college, was placed in the Missouri theatre this afternoon and its operations can be witnessed there tomorrow afternoon.

Several members of the College faculty and others attended a private demonstration of the Gridgraph at the Missouri theatre this afternoon shortly after all had been put in readiness for its manipulation.

Mr. Mapel said today that the Maryville-Springfield game tomorrow would be started at 3:30 o'clock and that he wished everyone attending the Gridgraph game be in the theatre and in their seats before that time. Line-ups and preliminary announcements will be made before the game is started. Arrangements have been made with the sports editor of the Springfield Leader to furnish a play by play account of the game by telegraph. It is from those reports that the Gridgraph will be operated.

It had first been announced that the Gridgraph would be set up in the court house yard but after the managers of the Missouri theatre offered the use of that place it was decided to place the apparatus there. The Gridgraph will be stored there between games.

The Gridgraph is a unique apparatus and so far as is known here it is the only one in this state with the exception of a football score board of a different nature which is installed at Columbia.

War Against Bandits To Be Started Soon

Postmaster General Outlines Coolidge's Plan For Combating Mail Robbers—Will Shoot To Kill.

Washington, Oct. 21.—President Coolidge's aid in the ruthless war against mail bandits has been outlined by Postmaster general New.

Approximately 2500 marines will be equipped with riot shotguns, loaded with slugs, and assigned to cover all valuable mail shipments within a few hours after the president's approval has been given. This is expected soon.

A marine corps chief will be assigned the job of detecting the "strafing" of bandits. "Hard boiled" tactics will be used and orders to shoot to kill will be issued to the leathernecks. Automatic pistols and rifles for long distance pursuits also will be included in equipment. Expert marksmen and overseas veterans will be given preference and leadership among the guards.

The leathernecks will be assigned railway mail cars as well as the automobile trucks which have been the object of recent robberies and slayings, such as the \$151,000 Elizabeth, N. J. holdup.

Glaring Lights Cause Automobile Accident

(Hopkins Journal)
Last Friday evening as Chas. Hanna, Jr., was returning from Maryville, where he is attending college, he experienced what might have been a serious accident. It was just after dark when he was met by a car driven by a Mr. Frazee, from Maryville, who evidently was blinded by the lights from the Hanna car, for instead of giving his half of the road he kept to the center and as a result the two cars crashed together. The Hanna car was turned over on its side, the top being completely demolished and the front part of the car smashed considerably. With Charles was his mother and sister, Margaret, and Clarence Olmstead, and the fact that no one was hurt seems almost a miracle. No one was with Mr. Frazee in the other car. Both cars were so badly wrecked they had to be hauled in on the back end of a truck.

New Clear Water Well Is Planned

Mayor And Council Favor An Improve-
ment Designed To Protect City
Plant Against Possible
Floods.

E. E. Harper, consulting engineer of Kansas City, was in Maryville yesterday to assist in drawing up plans for a new clear water well at the city's pumping plant. The City Council has had such an improvement under consideration for some time.

According to Mayor W. O. Garrett, the new well is needed to make the city's water system safe from possible flood damage. The present well, built for many years but still in good condition, is now only twelve feet from the bank of the river, and the mayor and his aides are of the opinion that a new well can be built more cheaply than the river can be kept from cutting into the bank. At the same time the clear well capacity will be doubled.

All the city's water goes from the filters into the clear well, from where it is pumped into the mains. Flood damage to the well would seriously impair the city water supply.

Present plans call for the new well to be dug on the west of the present buildings. At the same time the council plans to put the new electric pump, recently purchased, in the old filter house, instead of in the building housing the present pump. This would afford an additional precaution against flood damage. The present pump house is close to the river and the pumps are in a pit several feet lower than the old filter house, which is a substantial brick building.

COMPENSATION LAW NEEDED

MISSOURI MUST KEEP PACE, A.
F. L. HEAD SAYS.

MUST KEEP PROGRESS

State Should Be Just To Laboring
Man, William Green Says On Ar-
rival in Kansas City.

Kansas City, Oct. 21.—"It is indeed singular and astonishing that the state of Missouri is the only industrial state in the Union that has failed to pass a workmen's compensation law."

That was the statement of William Green, president of the American Federation of Labor, on his arrival here today for a speaking engagement.

"The workers of this state still remain unprotected," he said, "but the state of Missouri must be just to them. It must keep pace with the progress that is being made in its neighboring states."

Green flayed the "selfish and commercial interests" that the friends of such legislation believe are responsible for invoking the coming referendum on the present compensation bill, which was passed at the last session of the Missouri Legislature.

Speaking of Henry Ford's five-day week, the labor leader said:

"The trouble with Ford's five-day week is that it reduces the pay of his employees to five days also. The American Federation of Labor has recently made agreements with several classes of industries for the five-day week but with six days pay. The shorter week should not come at the expense of the workmen's earnings."

(Editor's Note: Mr. Green is mistaken about the Ford five-day week. The employees work but five days but receive pay for six days.)

Opera Singer to Appear at College

Suzanne Keener, of the Metropolitan
Opera Company, Will Give a Con-
cert at 8 o'clock Tonight.

Suzanne Keener, coloratura soprano of the Metropolitan Opera Company, will appear in concert as a number on the Artists' course, at 8 o'clock tonight in the State Teachers College auditorium. Seat sale for the musicale has been good and with the number of college students who will use their major coupons for the affair there should be a good attendance tonight.

Miss Keener is possessed of a histrionic ability and a personality which allow her to make her concerts very effective, those who have heard her performances say. It was while singing during a Liberty Loan campaign that a musical philanthropist heard her and provided means for her pursuing a musical education. Later she became a member of the Metropolitan Opera Company working with that organization under a five year contract.

Dr. J. N. Potts of Guilford was fined \$5 and costs in the St. Joseph police court Tuesday on a charge of being drunk.

Are Awaiting Date For Big Dedication

New Stadium At University of Mis-
souri To Be Opened November
20 With Grid Game.

Columbia, Mo., Oct. 21.—With the new \$300,000 memorial stadium at the University of Missouri formally opened, the students are looking forward to the dedication of the stadium and the memorial tower November 20, the day of the time-honored Tiger-Jay-hawker gridiron battle.

The high football bowl and Gothic tower, erected in the memory of the 116 University of Missouri students, graduates and alumni who lost their lives in the World War, is the gift of the alumni, students and others to the school.

The stadium is incomplete, but now seats about 25,000 and relieves the congestion hitherto experienced in athletic contests on historic Rollins Field. The sides have been built but the enclosing ends to the bowl are yet to be constructed.

Appropriately, Missouri's ancient gridiron foe, the University of Kansas, will engage the Tigers on the memorable days.

Asks Other States to Join in Farm Plans

Iowa Governor Invites Executives Of
Western And Southern States To
Send Representatives.

Des Moines, Oct. 21.—Twenty-five states of the West and South were asked today by Governor John Hamill to join with the northern central states in the fight being waged for farm relief by the Committee of Twenty-two, named at the corn conference at Des Moines last January.

Governors of the states were to name two representatives each to join the committee which is now preparing to press agricultural measures in Congress. In his communication to the governors, Governor Hamill said the same principles underlie the agricultural problems of all sections of the United States.

ASKS REED TO COME TO OHIO

DEMOCRATS CHARGE "STUPEN-
DOUS" SLUSH FUND.

INTO COURT CHARGES

Reports That Large Amount Has Been
Pledged To Aid in Election Of
Pro-League Senators.

Columbus, Ohio, Oct. 21.—A Senatorial investigation of the Ohio political situation was asked of Senator James A. Reed by Democrats today. Thomas E. Dye, chairman of the state Democratic executive committee, in communicating with Senator Reed in Chicago, charged that a "stupendous sum" is being raised to elect Senator Frank B. Willis, Republican, and to elect Myers Cooper, Republican gubernatorial candidate.

Chicago, Oct. 21.—Swinging from the political intrigue of the Ku Klux Klan to a secret drive of organized pacifists to put the United States into the League of Nations within four years, the Senate slush fund inquiry into the Indiana Senatorial campaign today revealed a remarkable cross section of American body politics.

The hearing had two high spots. One, when Walter F. Pysert, former grand dragon of the Ku Klux Klan, told how he was thrown out of his job when he refused to line up the state Klans for Senator James E. Watson, and the other, when Clyde A. Walb, Republican state chairman, charged that an eight-million-dollar slush fund had been pledged by a group of New York pacifists to defeat Watson and his colleague, Senator Arthur S. Robinson.

While Senator Reed skillfully directed the inquiry, Walb declared 800 men had gathered in New York at the Hotel Biltmore at which a fund of eight million dollars was pledged which supposedly would be used in other states as well as in Indiana.

"The witness said Marcus Winnings of Elwood, Ind., had documentary evidence supporting this charge and Reed ordered the latter subpoenaed. Walb charged international bankers from Wall Street with financing a propaganda campaign in Indiana in favor of the world court, of putting America into the League of Nations within four years, and in opposition to the candidacies of Willis and Robinson. He estimated the cost of this campaign to date had reached at least \$35,000. The Republican campaign fund, Walb added, totaled about \$40,000 for thirteen candidates on the Republican state ticket.

He revealed, however, that the two largest contributions, one of \$5,000 by James A. Patten, the wheat king of the Middle West, and one of \$750 from Charles Piez, Chicago manufacturer, had been sent into his state from Illinois.

Land Bordering on State Line Is Sold

A warranty deed filed yesterday with Mrs. Mamie Clardy, county recorder, reveals the sale, for \$6,200 of the east forty acres of the west 56.46 acres of the northeast fractional quarter of section 33, township 67, range 36, located on the Missouri-Iowa line, about seven miles northeast of Clearmont. The tract was purchased by A. Edgar Pence from Stanley and Mary Ethel Pence.

Miss Mary Herwick is spending a week here with her sister, Mrs. W. B. Whitney, and family. Miss Herwick is en route to Kansas City from a several weeks' vacation trip to points in California.

STORM TOLL NOT KNOWN

HURRICANE WHICH SWEEPED CUBA
MAY HAVE KILLED MANY.

FLORIDA NOT STRUCK

Wind Struck Havana Yesterday Cau-
sing Damage But No Accurate
Check Of Casualties Has
Been Made.

Havana, Oct. 21.—The full effect of the hurricane which swept Havana yesterday may not be known for several days, officials stated today as work was started on cleaning away the debris and count the damage done by the terrific wind which swept the island.

Early estimates of casualties were increased and now it is estimated that there are between thirty and forty dead and between 1,500 and 2,000 injured. Transportation was still at a standstill today with street car tracks blocked by uprooted trees. The city was in total darkness throughout the night.

Washington, Oct. 21.—Florida has escaped the tropical hurricane which swept over Cuba, the weather bureau declared today.

"While gales were experienced in the extreme western Florida coast, there were no disastrous effects," the bureau said.

Jacksonville, Fla., Oct. 21.—The threatened tropical hurricane which was reported drifting toward the lower Florida coast has reversed itself and is blowing northeast off the Atlantic seaboard, weather bureau advisers here said today. Communication with the lower eastern coast was interrupted, however. Key West and Miami are entirely cut off from communication this morning. Telephone company reports here stated that communication with Miami was expected to be restored soon.

Verval McAtee Fined and Given Jail Term

Burlington Junction Youth Pleads Guilty
to Peace Disturbance—Bar-
nard Suit Still in Progress.

Verval McAtee, Burlington Junction youth, was fined \$25 and sentenced to serve thirty days in the county jail, when he pleaded guilty to disturbing the peace. McAtee was arrested after he had invaded the Mapel hotel at Burlington Junction while intoxicated, with the earnest intention of whipping the proprietor.

All the rest of the day in circuit court was taken up with a continuation of the trial of the suit of the Barnard State Bank against Wiley Lankford and Joseph James and Oscar Cunningham. Most of the time today was spent in arguing points of law with the jury excluded from the room.

A suit on note was filed today by L. A. Miller against James S. Miller. The petition states that on July 11, 1925, James S. Miller signed a note agreeing to pay \$306.73 to the Commercial Bank of Stanberry and that L. A. Miller signed as security. The latter declares that on the due date of the note he was compelled to pay the \$306.73 and that the defendant has paid back only \$69.89. A judgment is asked for the balance of \$236.84, with interest and an attorney's fee of 10 per cent.

COLLEGE AND SUCCESS

Whether it is worth while to send the young people to college is a question bobbing up over and over again. Will it really do them any good? Do they not waste their time and money dreadfully and get nothing out of it in proportion to what they and their parents put in? An answer is published by an insurance company which has made a survey of "Who's Who in America" with this in mind. Out of the same number in each group the

numbers who will attain distinction, they say, are as follows:

6 uneducated men;
24 men with common school education;
622 men with high school education;
5,728 men with college education.
Men with little or no education can succeed, it is true, but in nothing like the same proportions as the men with more training.

Without college training, the insurance company says, the chances are 90 per cent.

Wasting time, therefore, would seem to be a matter of opinion. The college boys may appear to be wasting a little in their youthful years, but they clearly do not waste so much in the long run.

The man who habitually abuses his opportunities, in college or out, does not become successful. It is this minority of habitual wasters and ne'er-do-wells that make up the small percentage of failures. But taking them as they come, most boys and girls get out of college enough from every point of view to make the four years spent

there eminently worth while.

THE THING TO STUDY

Young people pondering in which branches of study to specialize, will do well to consider the foreign languages, especially French, Spanish, German, and Italian.

The reason for this suggestion is that business interests in this country already are embarked upon a tremendous drive for foreign trade. Marked as the movement is, it is small in comparison to what will develop in the next few years. As a result there is already a demand for persons with some knowledge of foreign languages. The openings are many and varied. They will increase in number and variety as business expands.

It is a field as wide as the world, crowded with possibilities for interest, adventure and success. Happy the youth who fits himself to take advantage of it.

They were so busy this summer redecorating the White House that they forgot to put those time clocks in the Senate and House. But then it isn't as if they were needed.

The government has lost a perfectly good hurricane. It disappeared somewhere between the Bahamas and Bermuda. Finder please chain it in the back yard and notify the weather bureau.

Germany and France have made a friendly trade alliance. Just like the scriptures—the lion and the lamb lying down together. With Uncle Sam for the goat to complete the pastoral scene?

Stewart's
WASHINGTON
LETTER
By CHARLES P. STEWART
NEA Service Writer.

Washington—Even when he's prefer

to keep quiet, Representative Tom L. Blanton of Texas has to admit he can't resist a good chance to make a speech.

He had an invitation to make one the other day at a Washington Advertising Club luncheon.

He had the best of reasons for refusing. "He wanted as few people as possible to know he was in town. He believes some very serious abuses exist in the District of Columbia government and arrived recently, incognito, to investigate."

He had intended to take the lid off when Congress meets, but he had an idea that he could do the preliminary detective work to best advantage in gun shoes. Accordingly, he kept out of sight all he could, and warned his acquaintances to keep his presence here a secret.

Then came that Ad Club invitation and he fell.

It was a red-hot speech, about the way the district's being run, or the way Blanton thinks it's being run. He told everything that he'd been trying to save up until later on.

He had a large audience. It was a sensational affair. The whole thing was as public as possible. It was an advertiser's luncheon and Blanton certainly advertised, but he'd made it abundantly clear that advertising was the last thing he cared for just now.

After that speech, anybody who didn't know the Texan is here, and why, must be stone deaf and blind.

Osages Returning
To Their Prairies

More Than 1000 Tribesmen Will Be In Lawrence, Kan., For Athletic Field Dedication.

Lawrence, Kan., Oct. 21.—(The Osages are coming back to Kansas—not to repossess themselves of their one time homes on the prairie—but to be present for the dedication of the Haskell athletic stadium here Oct. 27 to 30.

Fred Lookout, chief of the Osages, has given Frank McDonald, financial chairman of the stadium committee, assurance that he will lead practically a thousand tribesmen into Lawrence late next week. His entire council will accompany him. Tribal headquarters for the Osages is Pawhuska, Okla. Few Osages will be left in Oklahoma during the celebration.

The Osages, among the largest contributors to the stadium, look upon the occasion as a real home-coming for they roamed the Kansas prairies many years before the government thrust them into barren, hilly country where oil was found to make them wealthy and to make them targets for thousands of schemers.

Practically the entire tribe will travel by automobile from Oklahoma, bringing with them their tents and tepees.

The advance guard of thousands of Indians expected here for the occasion will arrive late this week when a number of trucks containing tepees and supplies of the Quapaws, another

wealthy tribe, are scheduled to reach Lawrence.

The Quapaws indicated to McDonald that several hundred members of the tribe would follow closely upon the heels of the advance guard.

Louis Bighorse, master of ceremonies over the buffalo barbecue will reach Lawrence Friday. He has already prepared several hundred

pounds of hominy, dried pumpkin and other delicacies for the feast.

They
call me a
"rolling-mill"

THEY mean the way I roll 'em and smoke 'em all day long. I don't mind their wise-cracks. I've discovered the one tobacco for home-rolled cigarettes . . . Prince Albert. And I wouldn't trade places with the discoverer of the North Pole.

You begin to understand "why" the instant you open the tidy red tin and release that wonderful P. A. fragrance. That's tobacco, Fellows! The smoke is equally fragrant . . . fragrant and cool, like a breeze-swept orchard in blossom-time. Fragrant and cool and mild.

No matter how many you smoke, your tongue never says "stop." Yet these cigarettes are not wishy-washy. They have that full, round body that makes you want another . . . and another. Get yourself some Prince Albert and the makin's papers today.

If you like a pipe, or think you might like it if it liked you, try Prince Albert this way too. I smoke P. A. both ways. It doesn't bite my tongue or parch my throat. Pipe or cigarette, it doesn't matter. It's the tobacco that makes all the difference in the world.

P. A. is sold everywhere. And always with every bit of bite and parch removed by the Prince Albert process.

PRINCE ALBERT

—no other tobacco is like it!

Plans Banquet to Be Held in Norman

Affair For Alumni And Students Of University Of Missouri To Be November 5.

Norman, Oct. 21.—Plans for an alumni banquet for graduates and former students of the University of Missouri November 5, the day before the Homecoming game between the Tigers and the University of Oklahoma at Norman, are being completed this week by the Missouri Alumni Association.

The banquet will be in the Chamber of Commerce rooms in Oklahoma City. Dr. and Mrs. Stratton, D. Brooks; Coach Gwinn Henry and members of the Tiger football team, and Chester L. Brewer, director of athletics at Missouri will be special guests.

On the following afternoon the Tigers will tangle with the sooner grid squad on Owen Field at Norman in the annual homecoming game. Alumni and former students of the University of Oklahoma are expected to attend this game in large numbers. A big block of seats on the 50-yard line has been set aside for Missourians, and a special train will bring more than 500 students, the band and the pep squads from Missouri.

HARMONY

Quite a good attendance at Sunday School last Sunday, practically all of fathers and teachers being present. After the session, a letter from the Rev. Mr. Peterson was read by Mr. Saunders. Mr. Peterson is unable to give a definite answer to the call of this congregation until after the first of next month, and Mr. Saunders was instructed to inform him that this congregation would grant him that extension of time, in hopes that he might definitely decide to accept the call to service here. A committee was selected to make arrangements to fill the pulpit until that time. It is expected that the Rev. Mr. Uhl, of Ravenwood, will preach next Sunday at the 11 o'clock hour.

The library unit was returned the first of this week and another set will reach us as soon as the change can be made by freight.

Harry Martin was transacting business in Ravenwood Saturday.

John Green was on the sick list last week with a severe attack of quinsy. He is reported as rapidly improving.

The Craven-Castell threshing machine has been hulling clover in this neighborhood, and very good yields are reported. An exceptionally fine lot of seed was secured from a field of Mr. Bescoe.

Mr. and Mrs. McDowell and son, Jack, from the Graham neighborhood were Sunday afternoon visitors at the home of B. K. Lewis. Mr. McDowell is an uncle of B. K. Lewis.

Roads are fairly passable again in this vicinity, although some culverts are badly in need of repairs.

The farm house of Edna Baseo burned to the ground about 11 a. m. Monday, Oct. 18. Nearly all of the contents were saved, but the house was a total loss. It was not known what caused the fire, probably either a defective flue or the shingled roof catching from a spark. Mr. Baseo had insurance on both house and contents.

Miss Lavin Chrisman, who had been visiting her sister, Mrs. Halley Ford, for the last three weeks, returned to Duluth with her mother, Mrs. Chrisman, last Sunday.

School Notes.

The Operetta given Tuesday evening by the High School was one of the most successful events we have ever given. In spite of the rough roads we had a good house, as nearly every seat was occupied. A great many were kind enough to say it was the best rendered entertainment we have ever staged. The costumes, scenery and songs were in keeping with the theme of the play, and the dramatics were given in a nearly faultless manner. Beulah Wray received the medal for excellence in acting and richly deserved it. The judges were Mrs. Mary Hornbuckle, Mrs. Marjorie Morris and Mrs. Estella Porter. The affair reflects great credit on Mrs. Ford, who had entire charge of practice work and rendition. No further work in dramatics will be given for some time.

Oh Boy! Did you see those beads! Two basketball games are scheduled for this week; one with Conception at that place, and one with the Ravenwood quintet on our court.

No school Thursday or Friday, as all of our teachers were in attendance at Maryville. All our instructors are members of the State Teachers Association and take an active part in the meetings.

Vernon Barrett, who will have charge of our orchestra this year, will give first lessons next Saturday, beginning at 8 a. m. Mr. Barrett comes with very flattering recommendations, and we think ourselves fortunate to secure his services.

Remember the cat likes chicken. Several kodak pictures of different scenes in our Indian Operetta were taken Wednesday morning.

About thirty-five or forty of our

pupils attended the concert of the Kansas City Little Symphony orchestra at the college auditorium Thursday afternoon, and all enjoyed it.

Champaign School, taught by Mrs. Estella Porter, will give a school fair Tuesday October 26. Come and enjoy the fun.

Mrs. O'Neal and her mother are now living in the New Moore farm house. Their things were brought over from Quitman by Mr. Ralston last Saturday.

Favorable Weather For Farm Progress

Best Than at Any Other Time in Last Forty Days, According to Weekly Report of State Department.

Missouri received the best and most favorable weather for the farming interests during the past week up to and including Monday, October 18, that it has had during the last forty days or more, according to the Weather Bureau's weekly summary of weather and crop conditions. Mild temperatures prevailed, with mercury running up to 75 degrees on some days; there was little or no rain, and the sunshine averaged around 82 per cent of the possible.

Excellent progress was made in sowing wheat the latter part of the week. This work was about completed on most of the higher and drier lands, and good headway was made in the lower lands. The early sown wheat is up to good stands and the week's sunshine brought back its normal color.

Creeks and rivers are again well within banks, and the bottom land corn fields are drying out. Practically all corn is beyond damage by killing frost, but some cutting and shocking was done.

Most of the late forage crops have been cut, although considerable in the recently flooded bottoms and meadows has been abandoned. Pastures have full sustaining value. Apple picking and shipments continued.

In the southeast counties four or five days were favorable for picking cotton; about three-fourths of the crop is open.

Miss Epperson Undergoes Operation.

Miss Laveta Epperson, daughter of Mr. and Mrs. Charles Epperson, underwent an operation for goiter at the Kahler hospital in Rochester, Minn., Tuesday afternoon. She is doing nicely according to word received yesterday. Mrs. Epperson is in Rochester with her daughter, who has been under treatment there for two weeks. Miss Epperson will resume her work as English and dramatics instructor in the Cape Girardeau High School upon her recovery.

Our school was dismissed for two days last week, while Miss Henderson attended the Teachers' Association at Maryville, Thursday, Friday and Saturday. Miss Henderson reports a very enjoyable and profitable program.

The Health Nurses, Miss Davison and Miss Cramer visited our school Tuesday of this week. The most notable defects were poor vision, bad teeth, adenoids and enlarged tonsils.

Where possible the parents should make an effort to have these defects looked after by a competent physician, for many times such defects cause students to do poor school work.

"BIG BERTHAS" TO MID WEST

BOTH PARTIES CALL OUT HEAVY ARTILLERY.

CABINET ON STUMP

Illinois And Pennsylvania, However, Given Wide Berth Because Of Uncertainty Of Senate Action.

Washington, Oct. 21.—The cabinet on the stump and the Democrats are rushing out the reserves.

This fairly portrayed the political situation today as both Republicans and Democrats swung into the final drive down the stretch toward the November 2 election which is to determine control of the Seventieth Congress.

With only twelve days to go, both parties are stepping on the gas. New York voters heard last night Secretary of Navy Wilbur that if the Democrats win control of Congress a week from Tuesday, it will mean the turning down of the "marvelously successful" fiscal policies built up during the Coolidge administration. At the same time, Secretary of Commerce Hoover was telling the voters of Kentucky that if the Democrats are successful, it will mean the end of the present tariff law which, he said, has contributed so much to business stability and prosperity.

While New York and Kentucky voters were thus being warned, the voters of Ohio were being told by still another member of the Coolidge official family, Secretary of War Davis, that there is but one issue in the campaign, approval or disapproval of the Coolidge pol-

icies. Secretary of Labor Davis returned today from one speaking tour and started west immediately on another.

In all of these states and in others to be visited by the cabinet members on their present tours, there are keen Senatorial contests. All of the President's official family, however, are giving Illinois and Pennsylvania a wide berth because of the slush fund revelations, the uncertainty of the Republican candidates being seated if they are elected.

Confronted with this flow of forensic talent, there was a general exodus of Democrat spellbinders from Washington today. Some of them will follow on the heels of the cabinet officers and others will repair straight to those states where Democrats believe their chances are best—Kentucky, Ohio, Indiana, Missouri, Oklahoma, New York and Colorado.

The Democrats will send four speakers into Ohio, former Secretary Daniels, Representative Garrett, leader in the House; Senator Robinson, leader in the Senate; and Senator Copeland of New York. From Ohio, they will invade Indiana.

Christmas Boxes Now Being Packed

Junior Red Cross Workers Supply 175 Holiday Packages—Will Be Sent To Foreign Countries.

It is sixty-four days until Christmas but for Mrs. Fern Crull, chairman of the junior work, and Miss Betty Turner, executive secretary of the Nodaway County chapter of the Red Cross, it might as well be the night before Christmas. Their office in the Michau Building at least would give one an impression of holiday packing for that place is strewn with gift boxes to be sent to other countries.

Junior Red Cross workers in this coun-

ty have filled 175 boxes with Christmas gifts and these are to be sent to New York soon. From that place the boxes will find their way to foreign countries.

Last year seventy-five of the boxes packed by children in this county were sent to Greece and Czechoslovakia while seventy-five others were distributed to patients at the St. Francis hospital and at the county home. Currents were received by the schools whose boxes went to Greece.

Because it contains more Vitamines than any food you can get.

You'll be glad to know that Cod Liver Oil comes in sugar coated tablets now, so if you really want to put 10 or 20 pounds of solid, healthy flesh on your bones and feel well and strong, ask Gough & Evans or any druggist for a box of McCoy's Cod Liver Oil Compound Tablets.

Overdoing?

Hurry, Worry and Overwork Bring Heavy Strain.

MODERN life throws a heavy burden on our bodily machinery. The eliminative organs, especially the kidneys, are apt to become sluggish. Retention of excess uric acid and other poisonous waste often gives rise to a dull, languid feeling and, sometimes, toxic backaches and headaches. That the kidneys are not functioning perfectly is often shown by burning or scanty passage of secretions. More and more people are learning to assist their kidneys by the occasional use of Doan's Pills—a stimulant diuretic. Ask your neighbor!

COLDS THAT DEVELOP INTO PNEUMONIA

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis and other forms of respiratory diseases, and is excellent for building up the system after colds or flu. Money refunded if any cough or cold is not relieved after taking according to directions. Ask your druggist. (adv.)

GLAD TO SPREAD GOOD NEWS

Helped by Lydia E. Pinkham's Vegetable Compound

Cleveland, Ohio.—The friends of Mrs. Helen M. Kowalczyk of 6819 Hope Avenue were glad to hear that she has regained her health.

For quite some time Mrs. Kowalczyk was quite ill and it was impossible for her to work. She took Lydia E. Pinkham's Vegetable Compound to build her up. After she had started taking it, she wrote to the Pinkham Company as follows: "I certainly boost Lydia E. Pinkham's Vegetable Compound. I feel stronger already and sleep sounder. I am very glad to spread the good news of how it has helped me."

Detroit, Michigan.—"I heard of this medicine through an advertisement in the 'Detroit News' and wrote to Mrs. Grace Gillem, whose letter was published. Then I started taking the Vegetable Compound and got the best results. I used the Sensitive Wash, too. I am really happy if I can advise women to take your medicines."

—Mrs. M. E. MURPHY, 12163 Washburn Ave., Detroit, Mich.

Lydia E. Pinkham's Vegetable Compound has been in use by women for over fifty years. It is a vegetable tonic made from root and herbs and is sold at all druggists.

VANITY CASE

by Carolyn Wells

© 1926 by G. P. PUTNAM SONS

BEGIN HERE TODAY.

MRS. PRENTISS sees lights mysteriously appear and disappear in the HEATH household next door one night and the next day Harbor Gardens, Long Island, is agog with the murder of MYRA HEATH and the disappearance of her husband, PERRY.

House guests of the Heaths are LAWRENCE INMAN, heir to Myra's fortune, and BUNNY MOORE, vivacious, golden-haired, to whom suspicion points because of her refusal to answer questions.

Myra Heath was peculiar: She never used cosmetics, never wore colors. She had a mania for collecting glass, and it was a rare old whisky bottle from her collection that the murderer used to kill her. Candles were burning at her head and feet and nearby was a card marked, "The Work of Perry Heath."

Strangest of all, she was heavily made up and garbed in gay colors. The peculiar thing about Heath's disappearance is that all the windows and doors had been locked on the inside the night before and were found that way in the morning. Finger prints of Bunny Moore and Inman were found on the bottle.

At the Country Club the murder is discussed by SAM ANDERSON, Heath's rival for the club presidency; AL CUNNINGHAM, who is trying to solve the crime, and others. Some believe Heath the murderer. Anderson disagrees. TODHUNTER BUCK, nephew of Mrs. Prentiss and in love with Bunny, suggests to Cunningham that Heath also may have been murdered.

EMMA, a waitress in the Heath home, tells of seeing Bunny ascend the stairs about the time of the murder, carrying her vanity case. Later Bunny is amazed to get a phone call from Perry Heath telling her Inman is guilty. Bunny breaks down and faints under a grilling by DETECTIVE MOTT, who makes up his mind that she is guilty. Inman confides to Buck that he saw Bunny creeping the stairs after the murder, and Mott, questions all the servants and tells them to keep silent.

Cunningham gets a note from Anderson and goes to his house where Perry Heath suddenly appears out of the night and begins to talk.

Anderson invites Cunningham to his house and there, while waiting for his host, Cunningham is suddenly confronted by Perry Heath, who disappears as mysteriously as he had appeared. Shortly afterward, Anderson comes in, and he reproaches Cunningham for letting Heath get away.

TODHUNTER BUCK, who is in love with Bunny, is a witness to a nocturnal meeting between the girl and Heath. He tries to get Bunny to explain and when she refuses he calls in his friend, STEVE TRUITT, a famous detective. Bunny tells Truitt she had gone downstairs the night of the murder and seen Myra Heath, not yet cold in death, and Inman peering from behind a curtain.

NOW GO ON WITH THE STORY.

CHAPTER XLII

Mrs. Prentiss and her nephew came home from the funeral, full of that new gossip always engendered by such occasions.

"Good boy, Truitt!" Todd cried, on seeing his friend. "You're the Old Dependable still, I see. And you've scrapped acquaintance with our little lady, here. That's all to the good!"

"Have you been shown to your room? Did they make you comfortable?"

Mrs. Prentiss hovered about like a motherly hen, and though she got no definite answers to her questions, she gathered that her servants had done their duty by the new guest.

"No," said Todd, in answer to a query from Bunny. "Heath didn't show up. I didn't expect he would. Now, I say, Steve, whatever you do, or plan to do, you'd better get busy. For Mott has fire in his eye, and he's coming over here—"

"When?" Bunny asked.

"Right away, I shouldn't wonder. Have you two talked a bit?"

"Yes," Truitt said gravely. "Miss Moore has told me, I think, some details that she hadn't before disclosed. Now, am I Captain here, Tod?"

"You're Captain of this end of the investigation. I mean you're to do all you can to clear Miss Moore of suspicion and to steer Mott off her track."

"If Miss Moore is cleared of suspicion, surely that will automatically put Mott off that track."

"Yes. Can you do it?"

"What? Clear Miss Moore? Certainly. I can clear anybody who is innocent."

Todd Buck gave a quick, glad look from one to the other of the pair before him.

"You'll get your chance, then," he said, "for here comes Mott now."

The detective came in and was politely greeted. He sensed a slight antagonism, but it did not baffle him, for he was more or less accustomed to that.

"Mr. Truitt," Tod said, as he introduced the men, "is a private detective as well as a friend of mine. He is here to assist in investigating the Heath case if you care to consider his work in the light of assistance. If not, he will proceed independently. We hope there will be no friction or discord, but that, Mr. Mott, is up to you."

Tod's voice, thought quiet, had a serious ring, and Mott hesitated a moment before he replied.

"You are putting it badly, Mr. Buck, and I'm not sure I can answer offhand,

But I have no reason to refuse Mr. Truitt's help, and I don't. But if his conclusions seem to me untrue or unwarranted, I shall not consider myself in any way bound to accept them."

"Of course not," said Truitt, himself. "But I fancy we shall not conflict, Mr. Mott. Suppose we run over our main assets. I'm quite sure we must agree that whoever killed Mrs. Heath, also put the make-up on her face."

Mott looked a little uncertain.

"For, it seems to me, that by no stretch of the imagination, can we conceive of someone else thus treating the face of a woman already dead."

"It ain't likely," said Mott, speaking a bit unwillingly, for this very natural assumption hadn't occurred to him.

"Then, as we have proved that the make-up came from the vanity case belonging to Miss Moore, we must place a great deal of importance on all evidence connected with that vanity case."

"You bet it's important!" Mott declared, with a direct glance at Bunny.

"You have it?" west on Truitt.

"Yes, sir, and I propose to keep it. It is the keynote of the whole affair. It is the thing that will send the murderer to the chair!"

"I quite agree with you," Truitt said, gravely. "It is the keynote of the whole affair. I hope you will keep it. Now, Mr. Mott, whose finger prints were on that gold vanity case?"

"Miss Moore's."

"Yes, but whose else?"

"Didn't try out any others. There were more or less blurred impressions, but Miss Moore's prints were on top, and over all others, and there were plenty of 'em!"

"Yes, but you see, Mr. Mott, Miss Moore had her vanity case in her possession after the murder was discovered. Naturally, she fingered it."

"Where'd she have it?"

"Up in my room," Bunny replied, as the question was flung in her direction.

"How'd it get up there?"

"I carried it up there."

"After the murder?"

"Y—yes, after the murder."

Bunny, with Steve Truitt's eyes to guide her, was answering Mott with a quiet composure, and even a self-assurance that he had never seen her exhibit before.

"You were downstairs that night, then?"

"I was."

"Perhaps, Miss Moore," Truitt said, "it would be better for you to tell Mr. Mott about your going downstairs that night, after Mrs. Heath had been killed."

And so, simply and coherently, Bunny related the story of her visit to the studio, her finding Myra there, dead, and with the make-up on her face.

"Did you think the make-up was out of your box?" demanded Mott, who was unable to doubt the straightforward story of the girl.

"I didn't think about that. What I went down for was to get that vanity case. When I saw Mrs. Heath, I was so stunned, so shocked, I scarcely knew what I was doing. I caught up the vanity case, almost unconsciously, and I crept out of the room and upstairs, trembling and shaking with horror and fear."

"Fear of what?"

"Of nothing definite. Only the vague, shuddering fear that any one would feel after seeing a scene like that."

Tod Buck looked at the girl in amazement. What had come over Bunny to change so suddenly from a nervous, hysterical state to this calm, poised attitude.

Then, he remembered she'd had nearly an hour alone with Truitt, and

he rightly concluded that Steve had coached her.

Mott, too, was disturbed at Bunny's demeanor. He had meant to browbeat her, to frighten her, to put her through a mild third degree, but he had meant to fasten the crime on her, or get from her some direct evidence against another.

And now, she not only had a strong and formidable champion, but she had, apparently, found herself, and Mott was at a decided advantage.

"Well, then," he said, after a short pause, "it begins to look like Mr. Inman is our man."

"Why?" asked Truitt, suavely. "Because he looked out of his door as Miss Moore came upstairs? Almost anyone would look out into the hall at the sound of footsteps in a house at two o'clock in the morning."

"Especially a guilty man," growled Mott, who began to feel he was shining as a detective.

"Yet that's scarcely enough to base

a murder charge on. What other evidence have you, Mr. Mott, that you so confidently Mr. Inman is our man?"

"Well, the servants saw him going downstairs—"

"Yes, but that was at two o'clock after Miss Moore had already been down and had seen Mrs. Heath dead."

Mott looked glum. The new revelation of Bunny's trip downstairs had not yet been adjusted by him to his other facts.

"What Car Pulls the Best in the Mud"

They will ALL say

Ford

You ask why the Ford out-pulls them all—

FIRST—Ford cars have only 77 pounds weight per
horsepower. Less weight per horsepower than
any other automobile.

SECOND—Less weight per square inch of tire bear-
ing on the road. This prevents the car from
sinking deep into the mud.

THIRD—10 1/4 inches road clearance. This means
that the Ford car will go through deeper ruts.

FOURTH—100 inch wheelbase. Shorter wheel-
base means less loss of power.

FIFTH—Flexible spring construction allows one
wheel to raise over high obstacles without
much raise on the frame or body.

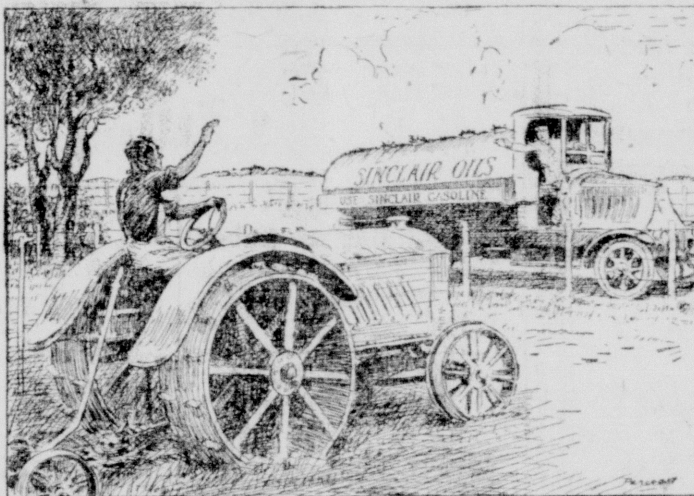

SIXTH—Planetary transmission allows rocking
back and forth in deep holes. Not possible with
any gear shift type transmission.

SEVENTH—Improved cooling system keeps engine
cool under extreme conditions.

EIGHTH—Ford cars serviced by BARMANN'S do

Indians May Take Long Football Trip

Haskell Team May Go To Hawaii For Post Season Football Game December 4.

Lawrence, Kan., Oct. 21.—Haskell Indian Institute has under consideration a proposal, which if accepted, would take the Indian football team on the longest journey ever made by a football team from this section of the country.

An invitation to play the University of Hawaii at Honolulu in a post season game December 4, was received by R. E. Hanley, athletic director and head coach at the Indian school. Hanley could not say whether the invitation can be accepted.

Haskell has a game scheduled with Tulsa University at Tulsa, Okla., on December 4 and it would be necessary to rearrange the schedule to some extent, Haskell would have to leave on the day they are scheduled to meet St. Xavier of Cincinnati in order to reach Honolulu in time to rest up for the game.

So far the Hawaiian team has been successful over all opponents from the United States in such post-season games. The University of Utah, the Oregon Aggies, Washington State University and Colorado University have gone down before them.

Former Resident Visits Here.

Mrs. Ben Craig of Dallas, Texas, arrived in Maryville Tuesday for a week's visit with her niece and neph-

ew, Mrs. Fred Kurtz and W. C. Frank, and other relatives. The visitor is a former resident of Maryville.

Shoemakers Come Tomorrow.

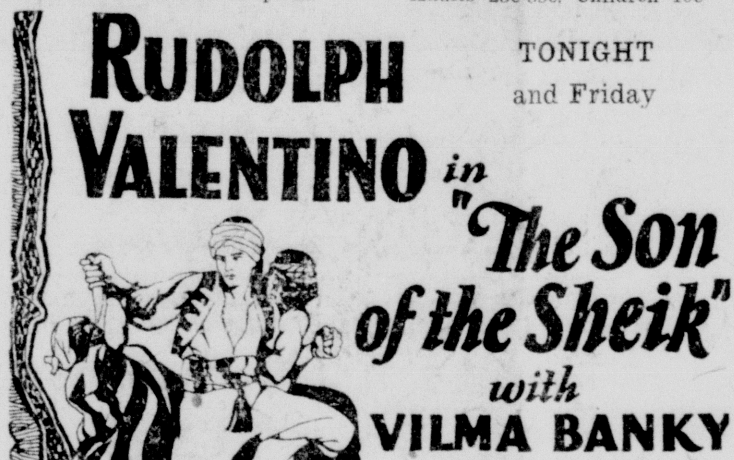

Mr. and Mrs. F. G. Shoemaker, Jr., and son, Jacques, of Omaha will come tomorrow for a week-end visit with Mr. and Mrs. F. G. Shoemaker, sr., and Mrs. Lavencour Michau, parents of Mr. and Mrs. Shoemaker, and other relatives.

Miss Mae Corwin returned Tuesday night from Joplin where she attended the state conference of the D. A. R. as a delegate from the Maryville Chapter.
